### Dimensions with Optional Heat Sink

Notes: Add “-K” suffix for ordering, heat sink is affixed with thermally dissipative adhesive tape. See derating graph for temperature performance. Heat sink material is anodized (black) aluminum, adds weight 11.3g to total mass (46.3g).

**Derating**

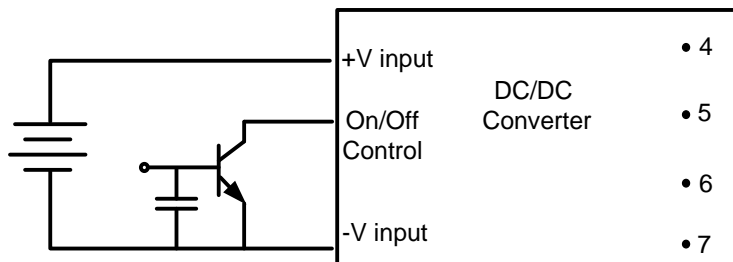

Extended temperature performance can be achieved with optional heat sink. (add suffix “-K” to part number)

**Trimming**

**On/Off Control**

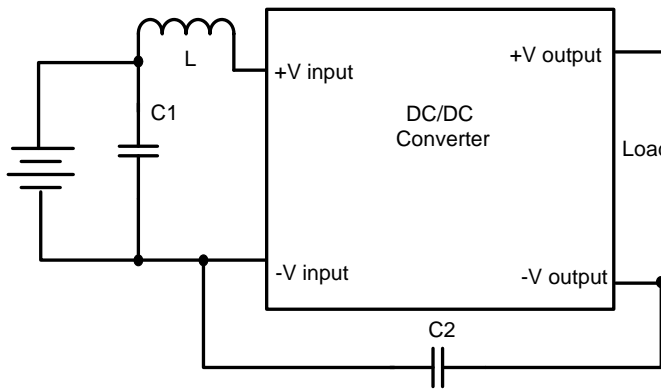

Positive logic turns on the module during high logic and off during low logic. Module can be controlled by an external switch between the On/Off CTRL terminal and -Vinput terminal. The switch can be either open collector or open drain.
